Year 11 Parent's Information Evening - Thursday 24th January (6:00pm – 7:30pm)

This event is very important it will consist of presentations from the English, Maths and Science departments detailing course requirements and materials available for revision. There will also be important information from other subjects including exam dates and coursework deadlines alongside possible revision techniques and access to a wealth of revision materials.

Careers Focus

Over the next two weeks Year 11 will be making their applications to their preferred post 16 destinations. They will be encouraged to apply for at least one college provision and can choose to apply for apprenticeships and armed forces placements as well. Myself, the House Leaders and representatives from our local providers will be supporting this process.

British Steel have opened up applications for Y10 experience days. This allows your son/daughter to have a day at British Steel which could then lead to a full week of work experience during the school holidays. Students have been encouraged to collect a leaflet from my office if they are interested.

Y9 had the launch of the Health Academy last week, an initiative running across the North Lincolnshire Consortium schools. This programme will see our students gain access to a wide range of health professions via the medium of guest speakers, job information, potential masterclasses and mentors. Over the next few weeks during PSHCE, Y9 will be completing 'Step into the NHS' to find out more about potential careers that link to their interests.

Knit and Knatter

We are hoping to create a display of knitted or crocheted hearts in time for Valentine's day. The idea is that students will be able to attach a message to the

heart if they make a donation, all monies raised will then go to the British Heart Foundation.

If anyone could help us to make some hearts (preferably in red or pink) as we are limited in man power here at St Bede's!

Many thanks.

Safeguarding

Attached is a booklet for parents to use with students who have special educational needs. It is a great tool for helping young people to learn how to keep themselves safe and strategies to use.

Year 11- Period 6 commencing the week 21st January

The students are now only four months away from their first GCSE examination in May. One of the most effective ways in which students can improve their grades is by attending after school revision sessions. As a result, we will be running Period 6 lessons starting the week commencing the 21st January until the end of the exam period in June. These sessions are **compulsory** for students and will run until 4:05pm.

Period 6 will take place every Monday, Tuesday, Wednesday and Thursday. You will receive a letter in the next week to inform you which subjects your child will be attending.
